## Technology

### Laser Printer **Provisionally claimed (Jacob)**

HP LaserJet Pro 200 Color MFP M267n.

- **Color registration isn't quite right** (despite my best attempts at recalibration and cleaning). If you print in colour you will get poor results!
- I believe it remains perfectly usable as a black & white printer. The flatbed and sheet feeder scanners also still work fine.
- USB or wired ethernet network connectivity.
- Microsoft Windows Drivers:  
<https://support.hp.com/id-en/drivers/hp-laserjet-pro-200-color-mfp-m276/model/5097653>
- No sign of paper manuals but I have Quick Reference and User Manual PDFs.
